BEER GUIDE

WE LOVE BEER AND THAT'S WHY WE HAVE LOTS OF IT. NOT EVERYONE KNOWS EVERYTHING ABOUT EVERY BEER, SO WE CAME UP WITH THIS QUICK GUIDE TO GET YOU STARTED.

ALE – *Beer brewed from malted barley using top-fermenting yeast. Compared to lager, ale yeast ferments more quickly, and often produces a sweeter, fuller-bodied and fruitier taste.*

PALE ALE – *American and English pale ales can differ, but generally they are gold or copper colored and dry with crisp hoppy flavor. Typically bitter with caramel.*

IPA – *India pale ales feature a more intense hop flavor and aroma and a slightly higher alcohol content.*

BROWN ALE – *These ales are medium bodied and have a strong, malty center and flavors can be nutty and sweet with a light hop flavor.*

STOUT – *Thick, black and rich. Stouts draw their flavor and color from roasted unmalted barley. They often taste of caramel malt or sugar, with little to no hop flavor.*

PORTER – *Very similar to stouts but made largely from unroasted barley. Porters are dark brown in color and sweet with hints of chocolate and sometimes have a sharp bitterness.*

WHEAT BEER – *Malted wheat and barley are used to make a beer that is light colored and full flavored with unique yeast strains producing flavors like banana, clove and vanilla. They feature a hazy appearance and are commonly unfiltered, leaving yeast sediment in the bottle.*

AMBER/RED – *Darker than their lighter lager relatives, usually amber colored, hence the name. Ambers and reds are more malty than hoppy. Flavor profiles vary considerably.*

PILSNER – *A type of lager, easily the world's most popular beer style. Pilsners are pale, golden in color and light. Typically smooth and clean.*

BOCK – *A stronger, dark lager with a robust malt flavor, medium to full bodied, lightly hopped.*

SHANDY – *Shandy is beer mixed with a soft drink, such as carbonated lemonade, ginger beer, ginger ale, or apple juice.*

CIDER – *Ciders or hard ciders are an alcoholic beverage made from the fermented juice of apples.*
